2011.Sorento

Cross over to the unexpected.

Presenting the all-new 2011 Kia Sorento. It delivers a smooth ride and nimble handling. It also has an expansive interior with spacious seating. But these are just the beginning of the things you should expect in a world-class crossover. The real fun begins with the unexpected. The Sorento has the latest technological advances, including *Bluetooth*[®] wireless technology,¹ a voice-command navigation system¹ and push-button start.¹ It also puts 3.5 liters¹ of stirring performance at your command, power that's matched by class-leading fuel efficiency² — and it's all yours at a value that is hard to resist.

EX V6 WITH LIMITED PACKAGE SHOWN

^{1,2} See Features and Specifications pages for availability and endnotes.
* Available as optional equipment.

Styling: extraordinary. Performance: ditto.

The all-new Sorento has sleek, contemporary styling along with performance that matches its striking design. This combination of style and performance creates a crossover that opens up a new world of possibilities. Unibody construction helps provide a smooth ride. Available all-wheel drive helps you handle certain road conditions with confidence. A standard 2.4-liter I4 delivers strong acceleration and an outstanding 29 mpg on the highway.² A 3.5-liter, 276-hp engine that offers the most V6 horsepower in its class⁴ is available for even greater capabilities — performance that's complemented by class-leading fuel efficiency of 20 city/26 highway mpg.² Advanced safety systems include six airbags, Electronic Stability Control (ESC), a Traction Control System (TCS) and Electronic Brake-force Distribution (EBD). Like all Kia models, the Sorento also comes with an industry-leading 10-year/100,000-mile warranty program.⁵ It's also the first vehicle to be built at Kia's new state-of-the-art manufacturing facility in West Point, Georgia.⁶

OFFICIAL VEHICLE OF THE NBA.

EX V6 WITH LIMITED PACKAGE SHOWN

EX V6 WITH LIMITED PACKAGE SHOWN

If all you see is a spacious cabin, look closer.

The all-new Kia Sorento grabs your attention for many reasons, among which is its exceptionally accommodating interior design. It has a spacious cabin that includes available split-folding third-row seats, which allow room for up to seven passengers. Beyond its roominess and remarkable head- and legroom, you'll also appreciate the Sorento for its fine craftsmanship and available features like, an eight-way adjustable driver's seat with lumbar support, leather-trimmed seating, heated front seats and an advanced, ionized air-filtration system that provides purified air.

EX V6 WITH PREMIUM PACKAGE SHOWN

Room for extras — like plenty of sunshine.

As a crossover, the Sorento is the definition of versatility. With its comfortable seating and intelligently designed storage spaces, it's perfect for running errands around town. When a special chore comes up or, better yet, you're lucky enough to get away for the weekend, the Sorento has the flexibility to answer the call. Its second-row seats have a 60/40 split-folding design to accommodate extra passengers, cargo or both, while the available third-row seats are 50/50 split-folding. Both the second-row and available third-row seats quickly and conveniently fold down to provide a remarkable 72.5 cubic feet of cargo space. The Sorento also features a dramatically designed available tilt-and-slide panoramic sunroof¹. It extends along the length of the roof and allows the interior to be filled with sunshine, creating a bright and airy feeling.

SPLIT-FOLDING THIRD-ROW SEATS
The available third-row seats fold down for increased cargo area, or split-fold to carry an extra passenger and cargo²

SECOND- & THIRD-ROW SPLIT-FOLDED
The split-folding design of the second- and available third-row seats lets you carry longer items as well as passengers²

SECOND-ROW CENTER CONSOLE
The flip-down, second-row center console has a padded armrest with cup holders.

CENTER CONSOLE STORAGE
The large front-seat center console is perfect for storing personal items.

HIDDEN STORAGE COMPARTMENT*
Storage space under the cargo-area floor is easy to reach and lets you keep supplies neatly out of sight. (Not available with 3rd-row seating.)

IN-DOOR STORAGE
Both the driver-side and passenger-side front doors have convenient places to hold a water bottle.

¹ & ² See Features and Specifications pages for availability and endnotes. *Available as optional equipment only.

Proof that technology is your friend.

With the Sorento, you'll be able to treat yourself to some of the finer things in life every time you drive. That's when you can enjoy the superb acoustics provided by the available premium Infinity® audio system with Discrete Logic 7th Surround Sound. With an accessory cable, you can use the stereo to operate an iPod® mobile digital device¹² and browse through your music library by playlist, album, artist or song. A voice-command navigation system is available with EX models. It features integrated SIRIUS Traffic,¹¹ which provides real-time traffic conditions on the highways you're traveling. For convenience that you'll appreciate day in and day out, the Sorento gives you the unending satisfaction of starting the engine with the push of a button.* It also includes technologically advanced features ranging from Bluetooth® wireless technology to a rear-camera display.¹²

STEERING-WHEEL-MOUNTED CONTROLS

Conveniently operate the audio system, cruise control and Bluetooth wireless technology-enabled cell phone.¹²

REAR ENTERTAINMENT SYSTEM*

With an 8-inch monitor, the DVD system provides endless enjoyment.¹²

BACK-UP WARNING SYSTEM*

An audible warning helps to alert you to objects behind that you might not be able to see.¹²

PUSH-BUTTON START*

Simply push a button to start and stop your Sorento's engine.

SIRIUS® SATELLITE RADIO

Delivering over 130 channels, including 69 channels of 100% commercial-free music, plus sports, news, talk and entertainment.¹¹

REAR-CAMERA DISPLAY*

Designed to help you spot things behind your vehicle that you might not see when you look over your shoulder.¹²

USB/AUXILIARY JACK FOR MP3 AUDIO

Now you have the freedom to listen to your favorite tunes from your own music library.¹²

BLUETOOTH® WIRELESS TECHNOLOGY

Enjoy convenient, hands-free use of your compatible Bluetooth wireless technology-enabled cell phone.¹²

11 & 12 See Features and Specifications pages for availability and endnotes.
*Available as optional equipment.

EX V6 WITH LIMITED PACKAGE SHOWN

POWER MATCHED BY FUEL EFFICIENCY

Sorento has a standard 175-hp 2.4L 4-cylinder that provides smooth performance, strong acceleration and an outstanding 29 mpg on the highway.² An available 276-hp 3.5L engine delivers the most V6 horsepower in its class³ matched by class-leading V6 fuel efficiency.²

ENGINEERED FOR INCREASED FUEL EFFICIENCY

Both engines have advanced technology that includes double overhead cams with four valves per cylinder and Continuously Variable Valve Timing (CVT). CVT automatically adjusts valve timing for increased power, reduced exhaust emissions and improved fuel efficiency.²

SPORTMATIC[®] SHIFTING

LX and EX models feature a 6-speed automatic transmission, providing smooth, seamless shifting and improved fuel efficiency. Its Sportmatic design offers a choice between automatic shifting and, for a sportier drive, clutch-free manual shifting.

PLENTY OF POWER FOR TOWING

For towing a boat or trailer, the V6 engine provides an outstanding 3,500 lbs. towing capacity.²

THE CONFIDENCE OF ALL-WHEEL DRIVE

LX and EX models are available with either front-wheel or all-wheel drive with locking center differential. AWD models feature full-time Torque-On-Demand[®] using electronic sensors to monitor road conditions and then distributing power to the appropriate wheels. The result is responsive, sure-footed performance on certain road conditions.

PRECISE, SPORTY HANDLING

A MacPherson-strut front-suspension system and independent rear suspension provide an extremely smooth ride and precise handling. EX models feature 18-inch alloy wheels for even sportier handling.

² & ³ See Specifications page for endnotes.

Driving force.

Thanks to its unibody design, the all-new Sorento rewards you with an exceptionally smooth and quiet ride. It also offers precise handling on curvy roads, and has a Sportmatic transmission that lets you enjoy the satisfaction of clutch-free manual shifting.

EX V6 WITH LIMITED PACKAGE SHOWN

We've got you covered — from ESC to TCS.

The Sorento features advanced active safety features designed to help give you peace of mind every time you drive. Each one is engineered to help you maintain control, even in harsh road conditions and in some emergency situations. Every system is also designed to function automatically, leaving you free to focus on safe driving.

ELECTRONIC STABILITY CONTROL (ESC)

ESC uses sensors to transmit information about your vehicle's speed and lateral acceleration to an onboard computer. The system then adjusts engine speed and brake pressure as required to help enhance your Sorento's ability to respond to your steering input.

TRACTION CONTROL SYSTEM (TCS)

TCS can sense wheel spin during acceleration. When it does, it uses a combination of engine power and brake force to transfer power to the wheels that have the most traction. This provides both increased control and enhanced responsiveness.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD senses the vehicle's load and weight distribution, then applies the necessary braking pressure at each wheel. It's a system that helps to enhance your control.

BRAKE ASSIST SYSTEM (BAS)

BAS operates based on the force that's applied to the brake pedal. If you need to brake aggressively, it helps control the stop by applying the necessary braking pressure.

DOWNHILL BRAKE CONTROL (DBC)

DBC is particularly helpful on steep slopes. Using the Anti-lock Braking System, it holds your Sorento's speed steady, up to 5 mph, so you can concentrate on steering.

HILL ASSIST CONTROL (HAC)

When stopped on a steep hill, a vehicle may roll once the driver releases the brake. HAC helps by gently applying the brakes for two seconds while you move your foot from the brake pedal to the accelerator.

EX V6 WITH PREMIUM PACKAGE SHOWN

State-of-the-art from the state of Georgia.

Today, Kia MotorsTM has reached a milestone. To help keep up with the demand for its vehicles, Kia has built its first U.S. manufacturing plant — Kia Motors Manufacturing Georgia (KMMG). It's a \$1-billion state-of-the-art facility on 2,200 acres capable of producing 300,000 vehicles a year for the North American market. The economic impact of the plant on the local economy is already significant. KMMG will create approximately 2,500 new jobs in the plant itself and another 7,500 for suppliers. In total, the plant will contribute an estimated \$4 billion to Georgia and, in turn, the U.S. economy. The 2011 Kia Sorento is the first vehicle to be built¹ in the new plant — with more to come. Kia's Georgia plant joins high-tech Kia facilities in California and Michigan — where the latest design and research takes place. California is also home to state-of-the-art proving grounds, a large-scale operation where Kia vehicles are rigorously put to the test. These U.S. facilities complement Kia manufacturing plants that span the globe — producing more than 1.3 million vehicles a year for drivers worldwide and assuring you of Kia's commitment to serve your driving needs for many years ahead.

GROWING STRONG
 2009 marked the 15th anniversary of Kia in America. It took only 10 years to sell our first million vehicles — faster than BMW, Mercedes, Toyota or Mazda.² Our consistently strong growth can be greatly attributed to our pride of craftsmanship.

BUILT IN THE U.S.
 The Sorento is just the first Kia vehicle to proudly be built at KMMG.³

SELF-CONTAINED CAPABILITIES
 The plant not only includes paint, stamping and welding departments, it also has a nearby first-class training center that is defining a new global standard of manufacturing quality.

A PLANT DESIGNED FOR EFFICIENCY
 KMMG has a unique layout. It has a trestle that links each section of the plant, allowing the vehicle to be efficiently transported between departments as it passes through the phases of the production process.

CREATING AN ESTIMATED 2,500 JOBS
 The new Kia plant is revitalizing the city of West Point and surrounding areas, allowing its rich Southern heritage to thrive.
